

WEBRAISERS
Project Request Form

The Webrisers at The New England Institute of Art is a student club, that under the direction of a faculty advisor, provides student-generated web site work for non-profit institutions.

All work is done under the supervision of a member of the Interactive Media Design faculty and is geared to fit into a normal semester's work.

If you are interested in collaborating with the Webrisers on such projects as development of web site interfaces, creation of new web sites or modification of existing sites, please fill out the form below and return it to the College.

Projects will be chosen by students in the Webrisers club, with guidance from the faculty advisor.

If chosen, a contract will be generated outlining the obligations and responsibilities of all parties. Accepted clients will be responsible for providing content, any original photography and all costs associated with the production of the project. The College will request a copy of release forms for any images used in production. The College does not provide hosting services.

We look forward to working with your organization and helping you advance your message through a quality web site.

Name of Organization: _____

Description of Organization/ Mission: _____

Project Request: Please tell us what materials you are looking to create and the desired audience for the web site:
